

Round flexible duct connector

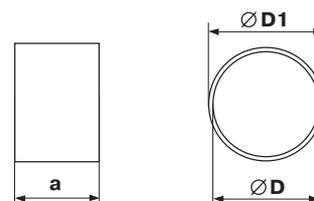

Application

- Supply and exhaust ventilation of various premises.
- Connection of flexible round ducts.

Design

- Made of white PVC.
- Cover the connector with air duct and fix it with clamps.
- Connecting diameters: 100, 125, 150, 200 mm.

Code	Dimensions [mm]		
	a	D	D1
1113	60	100	103
2123	60	125	128
3133	60	150	153
4143	60	200	204

90° bend for round ducts

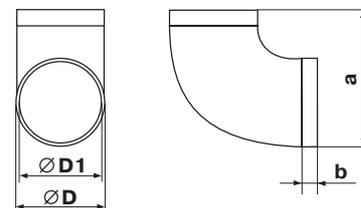

Application

- Supply and exhaust ventilation of various premises.
- Connection of same diameter air ducts at 90°.

Design

- Made of white plastic.
- Connecting diameters: 100, 125, 150 mm.

Code	Dimensions [mm]			
	D	D1	a	b
121	100	97	137	30
222	125	122	164	30
323	150	147	189	30

45° bend for round ducts

Application

- Supply and exhaust ventilation of various premises.
- Connection of same diameter air ducts at 45°.

Design

- Made of white plastic.
- Connecting diameters: 100 mm.

Code	Dimensions [mm]				
	D	D1	a	b	c
121-45	103	100	125	30	129
